Demon Tweeks/Yokohama Stock Hatch Championship

Demon Tweeks and Yokohama tyres are the main sponsors for the Stock Hatch Championship, which in its 7th year continues to be one of the most popular saloon car championships in the UK. Editorial coverage of the championship is to be provided by Track & Race Car magazine. Modifications are strictly limited to basic rebore and blueprinting along with the use of standard gearbox; ignition systems are 'free'; suspension mods are limited to lowering and uprating of springs and dampers; brakes remain standard with free pad materials; a 'control' Yokohama A539 tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

There are 3 practice sessions. From the combined times of those sessions, the slowest 60 are split alternately into Races 1 & 2, the remainder going straight into Race 7. Spaces on the back of that grid will be filled by taking, alternately, the top finishers from Races 1 & 2.

750 Motor Club Formula Vee Championship

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget.

It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK.

Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

The nominated reserves will practice, but only race if space becomes available.

'Trump Card' 750 Formula Championship

750 Formula is for lightweight two-seater sports racing cars, originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula. There are two engine options, either the highly tuned Reliant 850cc or the unmodified Fiat 'FIRE' 1108cc, the latter introduced in 2003 due to the diminishing supply of spares for the Reliant engine. All cars run on a control Yokohama slick tyre.

750 Motor Club Locost Championship

The 750 Motor Club Locost Championship is for cars built to the same basic design and using a standard Ford 1300 cc crossflow engine, gearbox and many other standard components. All cars run with a 'control' camshaft from Kent Cams; modifications are limited to a rebore and basic 'blue-printing'. There is also a 'control' tyre, the Yokohama A539 which, being a road-legal tyre, is suitable for both dry and wet conditions. There is free choice of spring rates and anti-roll bars; dampers must be steel-bodied and single-adjustable. Designed to ensure close racing and encourage new drivers into club racing at sensible cost levels the championship has now expanded to a point where 2 grids are necessary at some meetings.

MDS Battery RGB Championship

First introduced in 2001, the 750 Motor Club's RGB Championship is for two-seater cars which must be road legal and capable of passing an MOT. Cars may be constructed specifically for the series or may be one of the many motorcycle engine cars currently available from a wide range of kit car manufacturers. The engines must be series-production four-stroke units and may not be modified from standard; they run in three classes; standard Fireblade engine kit cars (class C), up to 135 bhp (class B), 136 to 180 bhp and rear-engined cars (class A). New for 2004 is a Yokohama control tyre, the A048R.

The Championship is once again sponsored by MDS Battery Ltd.
