750 Motor Club Locost Championship

The 750 Motor Club Locost Championship is for cars built to the same basic design and using a standard Ford 1300 cc crossflow engine, gearbox and many other standard components. All cars run with a 'control' camshaft from Kent Cams; modifications are limited to a rebore and basic 'blue-printing'. There is also a 'control' tyre, the Yokohama A539 which, being a road-legal tyre, is suitable for both dry and wet conditions. There is free choice of spring rates and anti-roll bars; dampers must be steel-bodied and single-adjustable. Designed to ensure close racing and encourage new drivers into club racing at sensible cost levels the championship has now expanded to a point where 2 grids are necessary at some meetings.

750 Motor Club Roadsports Championship

If it's a sportscar produced in a reasonable volume, it's probably eligible. Current makes/marques include Aston Martin, Clan, Ferrari, Ginetta, Jensen Healey, Lotus, Marcos, MG, Morgan, Porsche, Renault, TVR, Triumph and Turner. There is no more varied a Championship for sportscars in the UK and its split into separate classes based generally on engine capacity/car type. Engine must be original fitment, but crank, rods, pistons, camshaft, induction and exhaust are free; head mods are permitted; add-on turbos/superchargers are not permitted. Power outputs will vary between 100bhp in the small class, to getting on for 350+ bhp in the big V8s. Transmission must be a production-car gearbox. Close-ratio gears and LSD are permitted, traction control is not.

750 Motor Club Formula Vee Championship

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget.

It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK.

Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

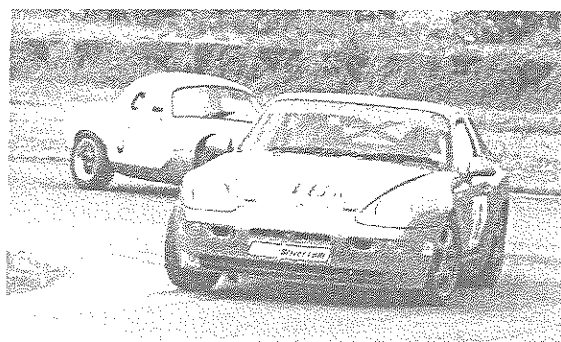

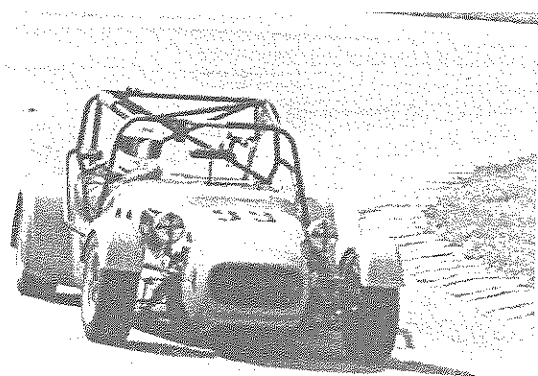

HEAT & FINAL

After the two practice sessions, the fastest 8 go into the final, the remainder into the heat. The grid for the final will be filled by the top finishers in the heat.

Demon Tweeks/Yokohama Stock Hatch Championship

Demon Tweeks and Yokohama tyres are the main sponsors for the Stock Hatch Championship, which in its 7th year continues to be one of the most popular saloon car championships in the UK. Editorial coverage of the championship is to be provided by Track & Race Car magazine. Modifications are strictly limited to basic rebore and blueprinting along with the use of standard gearbox; ignition systems are 'free'; suspension mods are limited to lowering and uprating of springs and dampers; brakes remain standard with free pad materials; a 'control' Yokohama A539 tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

MDS Battery RGB Championship

First introduced in 2001, the 750 Motor Club's RGB Championship is for two-seater cars which must be road legal and capable of passing an MOT. Cars may be constructed specifically for the series or may be one of the many motorcycle engine cars currently available from a wide range of kit car manufacturers. The engines must be series-production four-stroke units and may not be modified from standard; they run in three classes; standard Fireblade engine kit cars (class C), up to 135 bhp (class B), 136 to 180 bhp and rear-engine cars (class A).
New for 2004 is a Yokohama control tyre, the A048R.

The Championship is once again sponsored by MDS Battery Ltd.
