750 Motor Club Formula Vee Championship

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK. Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

MDS Battery RGB Championship

First introduced in 2001, this Championship is for two-seater cars which must be capable of passing an MOT. Cars may be constructed specifically for the series or may be one of the many motorcycle engined cars currently available. The engines must be series-production four-stroke units and may not be modified from standard; they run in three classes; standard Fireblade engined kit cars (class C), up to 145 bhp (class B), 146 to 180 bhp and all rear-engined cars (class A). Control tyre is the Yokohama AO48R.

Premier Choice Group 750 Formula Championship

750 Formula is for two-seater sports racing cars, introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits. There are two engine options, either the highly tuned Reliant 850cc or the unmodified Fiat 'FIRE' 1108cc, the latter introduced in 2003 due to the diminishing supply of spares for the Reliant engine. All cars run on a control Yokohama slick tyre.

A prolific Midget competitor, he lost his life in a road accident in 1987, just days after winning the Championship for a record 6th time. The trophy, a bronze of Steve's distinctive Lenham-fronted car, will be presented to the race winner in the paddock after the finish.

750MC Volkswagen Golf GTi Mk2 Series

In August last year a group of VW Golf enthusiasts (Adam Stevenson, John Hillon, Andy Walker and Phil Bowler) started talking to the 750 Motor Club about running a series of races for the VW Golf GTi Mk2. Skeleton regulations were drafted and amended several times along the way, but the result is obvious here today that the series has great potential. The supply of cars and spares is plentiful, as a standard vehicle it has good handling & performance, it is relatively 'bullet-proof', so it is an ideal car for a low cost one make series. All cars run on Toyo tyres, have a Newman control camshaft in otherwise standard engines and have minimum weights for the two classes (8v & 16v).
