750 Motor Club Formula Vee Championship

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK. Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

750 Motor Club Golf GTI Championship

During 2007, the 750 Motor Club ran a series of races for the Mk2 VW Golf GTI as a 'trial' for a future championship. Interest in the series and the number of competitors were sufficient to allow the Club to be granted championship status for 2008, which is an exceptionally short gestation period in racing terms. Both the 8 valve (class 1) and 16 valve (class 2) versions are eligible and run to minimum weights. Tuning is very restricted – a 'control' Newman camshaft, 'control' Toyo tyres, uprated suspension, standard gearbox – and the racing is close.

Demon Tweeks/Yokohama Stock Hatch Championship

The Stock Hatch Championship, is in its 11th year & continues to be the most popular championship in the UK. Modifications are strictly limited to basic rebore and blueprinting along with the use of standard gearbox; ignition systems are 'free'; suspension mods are limited to lowering and uprating of springs and dampers; brakes remain standard with free pad materials; a 'control' Yokohama tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

750 Motor Club Locost Championship

The 750 Motor Club Locost Championship is for cars built to the same basic design and using a standard Ford 1300 cc crossflow engine, gearbox and many other standard components. All cars run with a 'control' camshaft from Kent Cams; modifications are limited to a rebore and basic 'blue-printing'. There is also a 'control' tyre, the Yokohama A539. There is free choice of spring rates and anti-roll bars; dampers must be steel-bodied and single-adjustable.

Cambridge Race Cars have built several successful racecars and competed in many motorsport events with the 750 Motor Club, including the SR4 in which Jonathan won the RGB championship in 2006.

Premier Choice Group 750 Formula Championship

750 Formula is for two-seater sports racing cars, introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits. There are two engine options, either the highly tuned Reliant 850cc or the unmodified Fiat 'FIRE' 1108cc, the latter introduced in 2003 due to the diminishing supply of spares for the Reliant engine. All cars run on a control Yokohama slick tyre.

750 Motor Club Golf GTI Championship

During 2007, the 750 Motor Club ran a series of races for the Mk2 VW Golf GTI as a 'trial' for a future championship. Interest in the series and the number of competitors were sufficient to allow the Club to be granted championship status for 2008, which is an exceptionally short gestation period in racing terms. Both the 8 valve (class 1) and 16 valve (class 2) versions are eligible and run to minimum weights. Tuning is very restricted – a 'control' Newman camshaft, 'control' Toyo tyres, uprated suspension, standard gearbox – and the racing is close.
