**The organisers reserve the right, with the permission of the Stewards of the Meeting and/or the Clerk of Course, to amend the timetable, to change the order in which events are run and to postpone, cancel or abandon the meeting or any part thereof.**

*The 750MC is delighted to be back at Donington Park and congratulates all those involved in its reinstatement as one of the UK's most popular circuits. We look forward to returning next year with a full compliment of our championships.*

**Races 1 & 6****10 laps****750 Motor Club Allcomers Handicap**

Having run a few Allcomers races in the past, the 750 Motor Club is aware that there are many cars which, although fully prepared for racing, have no specific 'home' in which to race - this may be due to the cessation of a championship or series or the fact that the car was not built to any particular specification. The 750 Motor Club Allcomers races embrace these cars, plus those drivers wanting an additional race on the day.

The sealed handicap works as follows:-

*Each competitor has a 'sealed' target time set by the chief timekeeper, loosely based upon their previous known performance or best time in qualifying, which is not disclosed to any competitors. A merit factor is calculated for each finisher by multiplying their target time by the number of laps they completed, which is then subtracted from the time they took to complete the race. The handicap winner is the competitor with the lowest merit factor; anyone who improves on their target time by 5% or more will be disqualified from the handicap results.*

**Races 2 & 7****13 mins + 1 lap****750 Motor Club Formula Vee Championship**

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK. Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

\*The Formula Vee cars are joined by some of the Club's Formula 4 cars, all of whom were keen to race at Donington again. The F4 cars will be gridded at the front and the Vee race will start 20 seconds after the F4s.

**Races 3 & 8****13 mins + 1 lap****Demon Tweeks/Yokohama Locost Championship**

The 750 Motor Club Locost Championship is for cars built to the same basic design and using a standard Ford 1300 cc crossflow engine, gearbox and many other standard components. All cars run with a 'control' camshaft from Kent Cams; modifications are limited to a rebore and basic 'blue-printing'. There is also a 'control' tyre, the Yokohama A539. There is free choice of spring rates and anti-roll bars; dampers must be steel-bodied and single-adjustable.

**Races 4 & 9****13 mins + 1 lap****Demon Tweaks/Yokohama Stock Hatch Championship**

The Stock Hatch Championship, is in its 13<sup>th</sup> year & continues to be the most popular championship in the UK. Modifications are strictly limited to basic rebore and blueprinting along with the use of standard gearbox; ignition systems are 'free'; suspension mods are limited to lowering and uprating of springs and dampers; brakes remain standard with free pad materials; a 'control' Yokohama tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

**Race 5****38 mins + 1 lap****750 Motor Club Toyota MR2 Championship**

The 750 Motor Club Toyota MR2 Championship started in 2008 & is for production based sports cars run as near standard specification as possible allowing for safety requirements. There are separate classes. Class A for the Mk1, class B for the Mk2 and class C for the Mk3. Very few modifications from standard are allowed to keep costs down and maintain its aims as a budget series. All cars run on a control Toyo tyre and there are minimum weights in classes to even-out the performance.

**MR2 Driver Change Race**

Where there are two drivers, both are required to qualify within the same session – changeover should be in the pitlane, in front of the garages allocated to the MR2s.

In the race, the change of driver must take place after the first 10 minutes of the race up until the last 10 minutes of the race.

Where there is only one driver, that car must come into the pits within that same 'window' and stop in front of the MR2 garages.

The driver must vacate the car, go round it once and get back in.

All drivers must be fully belted-in before they move from their stationary position in front of the garages – this change-over will be monitored. Cars must observe the pitlane speed limit at all times.
