Formula Vee is the ideal championship for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK.

The 1996 Yokohama Formula 4 Championship provides the technical sophistication of slicks and wings in an affordable single seater championship. Class A allows any design of chassis and caters for the designer/constructor as well as for cars converted from F3, FFord, FF2000 and Formula Renault; all must use either 1300 Xflow or 1600 CVH Ford engines. Class B is for FF2000 cars built prior to October 1983, running to the former FF2000 regulations.

The Demon Tweeks/Yokohama Hot Hatch Championship, in association with Fast Car Magazine, was launched by the 750 Motor Club in 1993 and has steadily grown in popularity ever since.

This weekend's entry of 40 cars means that there will be two practice sessions, from which the fastest 15 will go straight through to the final. The remaining cars will take part in Race 4, as a "Heat", from which the first 15 finishers will join the grid for Race 12, the "Final".

The championship enjoys support from Demon Tweeks (suppliers of Race, Rally, Road Equipment & Accessories), Yokohama (manufacturers of race-proven road, race & rally tyres) and Fast Car Magazine.

Demon Tweeks and Yokohama tyres, in association with Fast Car Magazine, are the main sponsors for this year's Hot Hatch Championship which attracts a wide range of popular hatchback cars of up to 1600cc (or 1400 multi-valve). Cars must have a current MoT, are allowed relatively limited engine and suspension modifications, standard pattern brakes and all must use the Yokohama A510 'control' tyre. This together with a weight penalty for leading cars ensures close and competitive racing without excessive budgets.

The 1996 Radical Tan Roadsports Championship is the most varied and competitive sports car category in the country, attracting cars from four decades, over ten different manufacturers and has in excess of 110 eligible models of sports cars currently listed. With four carefully chosen class structures to ensure close competition for everyone, even cars from one-make series will find a place with more interesting competition. All cars must have a current MoT and run on road legal tyres, but considerable engine tuning and modifications to suspension and brakes are permitted.
