The 1996 Yokohama Formula 4 Championship provides the technical sophistication of slicks and wings in an affordable single seater championship. Class A allows any design of chassis and caters for the designer/constructor as well as for cars converted from F3, FFord, FF2000 and Formula Renault; all must use either 1300 Xflow or 1600 CVH Ford engines. Class B is for FF2000 cars built prior to October 1983, running to the former FF2000 regulations.

The 1996 Radical Tan Roadsports Championship is the most varied and competitive sports car category in the country, attracting cars from four decades and over ten different manufacturers, with four carefully chosen class structures to ensure close competition for everyone.

The 1996 Advent Multimedia Seven Challenge is for the two Caterham / Lotus 7 classes from the successful Roadsports championship run for many years by the 750 MC. A wide range of power units is permitted in these road legal cars, with modifications controlled to give close, clean and competitive racing.

Demon Tweeks and Yokohama tyres, in association with Fast Car Magazine, are the main sponsors for this year's Hot Hatch Championship which attracts a wide range of popular hatchback cars of up to 1600cc (or 1400 multi-valve). Cars must have a current MoT, are allowed relatively limited engine and suspension modifications, standard pattern brakes and all must use the Yokohama A510 'control' tyre. This together with a weight penalty for leading cars ensures close and competitive racing without excessive budgets.
