750 Formula is for lightweight two-seater sports racing cars and was originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula.

The 750MC Roadsports Championship is the most varied and competitive sports car category in the country, attracting cars from four decades, over ten different manufacturers and has in excess of 110 eligible models of sports cars currently listed. With four carefully chosen class structures to ensure close competition for everyone, even cars from one-make series will find a place with more interesting competition. All cars must run on road legal tyres, but considerable engine tuning and modifications to suspension and brakes are permitted.

The 750 Trophy Championship is for Austin Seven based cars, supported by other cars of historic interest and similar performance. As in the former pre-war Austin 7 Championship, Austin Sevens will compete in three classes:- Austin Seven sports and racing cars, post-war specials and early 750 Formula cars with Austin Seven engines/gearboxes. In two further classes are cars from the old 1172 Formula along with vintage, PVT and historic cars such as 500cc Formula 3, MGs, Rileys, HRG, Jowetts and other similar vehicles.

MARSHALLING

Today's race meeting could not happen without the devotion of individuals who give up their time to assist in the safe running of the meeting. Observer, flag, course, fire, rescue, paddock, pits and startline - all are UNPAID professionals who devote a lot to motor sport and without whom neither this event, nor any other, could take place. The 1997 Yokohama Formula 4 Championship provides the technical sophistication of slicks and wings in an affordable single seater championship. Class A allows any design of chassis and caters for the designer/constructor as well as for cars converted from F3, FFord, FF2000 and Formula Renault; all must use either 1300 Xflow or 1600 CVH Ford engines. Class B is for FF2000 cars built prior to October 1983, class C for pre Dec '80, running to the former FF2000 regulations.

Demon Tweeks, Yokohama tyres and Cars & Car Conversions Magazine are the main sponsors for this year's Hot Hatch Championship which attracts a wide range of popular hatchback cars of up to 1600cc (or 1400 multi-valve). Cars are allowed relatively limited engine and suspension modifications, standard pattern brakes and all must use the Yokohama A510 'control' tyre. This together with a weight penalty for leading cars ensures close and competitive racing without excessive budgets.
