***On both days the fastest 26 cars from practice go into the race.***

The 1998 ClubSports 2000 Championship is for two seater sports racing cars, run in 3 classes. Class A allows the amateur designer/constructor virtually unlimited freedom of chassis and suspension design and uses either the 1300 Xflow or 1600 CVH engine; Class B is for Sports 2000 cars. Class R is for the Radical Clubsport 1100, running with a Kawasaki 100cc engine & gearbox.

Res 1

***On both days the fastest 26 cars from practice go into the race.***

The HELLA Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK.

The H.R. Owen Roadsports Championship is the most varied and competitive sports car category in the country attracting cars from four decades, over ten different manufacturers and has in excess of 110 eligible models of sports cars currently listed. With five carefully chosen class structures to ensure close competition for everyone, even cars from one-make series will find a place with more interesting competition. All cars must run on road legal tyres but considerable engine tuning and modifications to suspension and brakes are permitted in classes A, B & C.

**The fastest 26 cars from practice go into race 4.  
The remainder will join the back of race 3.**

The ACS Limited Kit Car Championship is for road legal front-engined Kit Cars. The engine regulations allow considerable freedom whilst there are limitations on the design of rear suspension, transmission and on the use of spherical bearings. There are two classes, up to 1660 cc and 1661 - 3500 cc. ALBION CONSULTANCY SERVICES of Dunstable specialise in computer and management consultancy, in development of hardware and software and in Japanese language consultancy.

The 1998 Yokohama Formula 4 Championship provides the technical sophistication of slicks and wings in an affordable single seater championship. Class A allows any design of chassis and caters for the designer/constructor as well as for cars converted from F3, FFord, FF2000 and Formula Renault; all must use either 1300 Xflow or 1600 CVH Ford engines. Class B is for FF2000 cars built prior to October 1983, class C for pre Dec '80, running to the former FF2000 regulations.

Demon Tweaks, Yokohama tyres and Cars & Car Conversions Magazine are the main sponsors for this year's Hot Hatch Championship which includes a new Stock Hatch class which attracts a wide range of popular hatchback cars of up to 1600cc (or 1400 multi-valve). Cars are allowed no modifications to engine or gearbox, limited suspension modifications, standard pattern brakes and all must use the Yokohama A510 'control' tyre. This together with a weight penalty for leading cars ensures close and competitive racing within very reasonable budgets.

***There is no practice session for these cars on the Sunday.  
The grid positions will be set by the finishing positions in race 7.***

The 750 Trophy Series is for Austin Seven based cars, supported by other cars of historic interest and similar performance. As in the former pre-war Austin 7 Championship, Austin Sevens will compete in three classes:- Austin Seven sports and racing cars, post-war specials and early 750 Formula cars with Austin Seven engines/gearboxes. In two further classes are cars from the old 1172 Formula along with vintage, PVT and historic cars such as 500cc Formula 3, MGs, Rileys, HRG, Jowetts and other similar vehicles.

750 Formula is for lightweight two-seater sports racing cars and was originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula.
