**Cars on this page are in Practice Session 1**

Demon Tweaks, Yokohama tyres & Cars & Car Conversions magazine are the main sponsors for the Stock Hatch Championship, which last year ran as a class of Hot Hatch. The use of standard engine & gearbox, a 'control' Yokohama A510 tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

The H.R. Owen Roadsports Championship is the most varied and competitive sports car category in the country, attracting cars from four decades, over ten different manufacturers and has in excess of 110 eligible models of sports cars currently listed. With five carefully chosen class structures to ensure close competition for everyone, even cars from one-make series will find a place with more interesting competition. All cars must run on road legal tyres, but considerable engine tuning and modifications to suspension and brakes are permitted in classes A, B & C.

The 1998 MGCC BCV8 Championship is sponsored by Moss International. The championship was founded in 1977 with the aim of attracting MGB/C/V8 drivers onto the circuits. There are four classes - A is for standard MGB, MGBGT, MGC & MGCCT; B is for Road Modified MGB, MGBGT, MGC & MGCCT, MGBGT V8 & RV8; C is for full race MGB, MGBGT, MGC & MGCCT; D is for full race V8 cars.

The 1998 Yokohama Formula 4 Championship provides the technical sophistication of slicks and wings in an affordable single seater championship. Class A allows any design of chassis and caters for the designer/constructor as well as for cars converted from F3, FFord, FF2000 and Formula Renault; all must use either 1300 Xflow or 1600 CVH Ford engines. Class B is for FF2000 cars built prior to October 1983, class C for pre Dec '80, running to the former FF2000 regulations.

750 Formula is for lightweight two-seater sports racing cars and was originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula.

The ACS Limited Kit Car Championship is for road legal front-engined Kit Cars. The engine regulations allow considerable freedom whilst there are limitations on the design of rear suspension, transmission and on the use of spherical bearings. There are two classes, up to 1660 cc and 1661 - 3500 cc. ALBION CONSULTANCY SERVICES of Dunstable specialise in computer and management consultancy, in development of hardware and software and in Japanese language consultancy.

Demon Tweaks, Yokohama tyres and Cars & Car Conversions Magazine are the main sponsors for this year's Hot Hatch Championship which attracts a wide range of popular hatchback cars of up to 1600cc (or 1400 multi-valve). Cars are allowed relatively limited engine and suspension modifications, standard pattern brakes and all must use the Yokohama A510 'control' tyre. This together with a weight penalty for leading cars ensures close racing without excessive budgets.

The ACS Limited Kit Car Championship is for road legal front-engined Kit Cars. The engine regulations allow considerable freedom whilst there are limitations on the design of rear suspension, transmission and on the use of spherical bearings. There are two classes, up to 1660 cc and 1661 - 3500 cc. ALBION CONSULTANCY SERVICES of Dunstable specialise in computer and management consultancy, in development of hardware and software and in Japanese language consultancy.

The 1998 ClubSports 2000 Championship is for two seater sports racing cars, run in 3 classes. Class A allows the amateur designer/constructor virtually unlimited freedom of chassis and suspension design and uses either the 1300 Xflow or 1600 CVH engine; Class B is for Sports 2000 cars. Class R is for the Radical Clubsport 1100, running with a Kawasaki 100cc engine & gearbox.
