The REMARC Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK. Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races. For 1999, the championship has support from REMARC TECHNOLOGIES who specialise in computer software training courses.

750 Formula is for lightweight two-seater sports racing cars and was originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula.

The 750 Motor Club Locost Series is new for 1999 and is being promoted by the 750 Motor Club to encourage newcomers to construct and race a car, built to a standard specification, very much in line with the 'ethos' of the Club. The 'Locost' was originally designed by Ron Champion, a teacher at Oundle School in Peterborough, as a project for his technology pupils. Such was the success that over 50 have been constructed within the school, a very popular book has been published and it is intended that this should be yet another of the 750 Motor Club's formulae aimed squarely at getting people involved in Motorsport.

Demon Tweaks, Yokohama tyres & Cars & Car Conversions magazine are the main sponsors for the Stock Hatch Championship, which in only its 2<sup>nd</sup> year continues to be one of the most popular saloon car championships. The use of standard engine & gearbox, a 'control' Yokohama A510 tyre and a weight penalty for leading cars ensures close racing at very affordable cost.
