750 Formula is for lightweight two-seater sports racing cars and was originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula.

**RON CHAMPION**

The 750 Motor Club Locost Series is new for 1999 and is being promoted by the 750 Motor Club to encourage newcomers to construct and race a car, built to a standard specification, very much in line with the 'ethos' of the Club. The 'Locost' was originally designed by Ron Champion, a teacher at Oundle School in Peterborough, as a project for his technology pupils. Such was the success that over 50 have been constructed within the school, a very popular book has been published and it is intended that this should be yet another of the 750 Motor Club's formulae aimed squarely at getting people involved in Motorsport.
