The 750 Trophy Championship is for Austin Seven based cars, supported by other cars of historic interest and similar performance. As in the former pre-war Austin 7 Championship, Austin Sevens will compete in three classes:- Austin Seven sports and racing cars, post-war specials and early 750 Formula cars with Austin Seven engines/gearboxes. In two further classes are cars from the old 1172 Formula along with vintage, PVT and historic cars such as 500cc Formula 3, MGs, Rileys, HRG, Jowetts and other similar vehicles.

The H.R. Owen Roadsports Championship is the most varied and competitive sports car category in the country, attracting cars from five decades, over ten different manufacturers and has in excess of 110 eligible models of sports cars currently listed. With four carefully chosen class structures to ensure close competition for everyone, even cars from one-make series will find a place with more interesting competition. All cars must run on road legal tyres, but considerable engine tuning and modifications to suspension and brakes are permitted in classes A, B & C. Class D is for TVR Tasmins.

The 750 Motor Club Locost Series was started in 1999 and is being promoted by the 750 Motor Club, with sponsorship from Haynes Publishing, to encourage newcomers to construct and race a car built to a standard specification, very much in line with the 'ethos' of the Club. The 'Locost' was originally designed by Ron Champion, a teacher at Oundle School in Peterborough, as a project for his technology pupils. Such was the success that over 50 have been constructed within the school, a very popular book has been published and it is intended that this should be yet another of the 750 Motor Club's formulae aimed squarely at getting people involved in Motorsport.

750 Formula is for lightweight two-seater sports racing cars and was originally introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the budding amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits; alternatively there are often suitable cars available for sale from within the formula.
